
DIY Met Gala

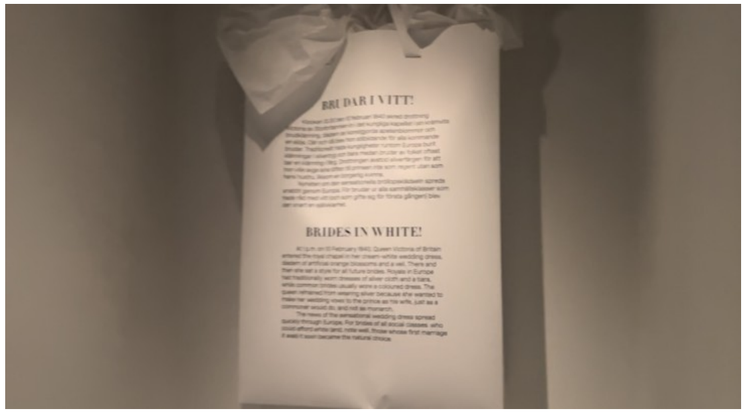
Computer Graphics 26-1

2023I035 Art&Tech

Minhyeong Park

Visual Concepts

Met Gala 2025 + Garment exhibition I've been to in Sweden



I would get reference from this price tag idea if I had more time

Visual Concepts

Interactive exhibition

← Picture from the exhibition of me and my friend
(My portrait in Nordic version)

Interactive activity in exhibition

= More understanding of the art

= Feelings of being part of them

Target Users

DIY Met Gala

- Anyone who loves fashion
- Anyone who are interested in designing their own dress
- Anyone who loves to get attention

Features

DIY Met Gala

By Sliders and Checkboxes ...

1) Decide the basic color of the dress (Lambert)
2) Decide the reflected light color of the dress if wanted (Blinn-Phong)
3) Let them take photos of your dress if wanted

Can take picture of the dress on carpet by clicking button.

Code

DIY Met Gala

```
  rotateY(PI + frameCount * 0.008);
  rotateX(PI / 2);

  push();
  scale(1);

  colorMode(HSB);

  //Lambert
  fill(fillHSlider.value(), fillSSlider.value(), fillVSlider.value());

  //Blinn-Phong
  if (phongCheck.checked()) {
    specularMaterial(specSlider.value(), 100, 100);
    shininess(shinySlider.value());
  }

  model(dress);
  pop();
```

Fill( ) - Lambert Model

specularMaterial( ) - Blinn-Phong Model

Gets value from sliders

```
  pointLight(200, 200, 200, 0, 0, -300);
  pointLight(255, 255, 255, 0, -100, 300);

  drawStairs();

  //flash effect
  if (flashCheck.checked()) {
    if (!bgm.isPlaying()) bgm.loop();

    if (random(10) < 2) flash = 250;
    flash *= 0.5;

    pointLight(flash, flash, flash, random(-200, 200), -50, 200);
  } else {
    bgm.stop();
  }
```

First pointlight = for Stairs

Second pointlight = for Dress

Camera flash effect by random( )
